Professional Summary

Frontend Developer with 2+ years of experience designing and building scalable, responsive web applications using React.js, JavaScript (ES6+), Material-UI, and REST APIs. Skilled in UI optimization, state management, and API integration, resulting in faster, user-friendly websites. Delivered eCommerce platforms and HRMS dashboards with measurable performance improvements. Strong collaborator in Agile teams, passionate about creating user-focused, accessible digital experiences.

Technical Skills

Frontend Technologies: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Material-UI, Bootstrap, Tailwind CSS, Responsive Web Design

Backend & Database: Node.js, MySQL, REST APIs, API Integration, Axios

Development Tools: Git, GitHub, Figma, VS Code, Chrome DevTools, NPM, Webpack

Libraries & Frameworks: GSAP, Framer Motion, React Hooks, Context API, Component Libraries

Methodologies: Agile Development, Scrum, Test-Driven Development, Cross-Browser Compatibility, Performance Optimization

Professional Experience

Frontend Developer Farmkrate – Visakhapatnam, India Feb 2025 – Jun 2025

- Developed scalable eCommerce dashboards and admin panels using React.js, Material-UI, and modern JavaScript frameworks
- Implemented advanced state management solutions and REST API integration, improving UI performance by 25 percent
- Optimized component rendering and reduced page load times by 30 percent through code splitting and lazy loading techniques
- Ensured cross-browser compatibility and responsive design across desktop, tablet, and mobile devices
- Collaborated with UI/UX designers and backend development teams to deliver seamless user workflows and functionality

Junior Software Developer, Yatayati Info Solutions Ltd. – Hyderabad, India Jan 2023 – Jan 2025

- Built comprehensive HRMS dashboards using React.js and REST APIs, achieving 95 percent user satisfaction rating
- Developed mobile-responsive, accessible web components improving overall system accessibility by 25 percent
- Automated HR workflows and processes, reducing manual processing time by 35 percent and improving operational efficiency
- Designed and implemented interactive data visualizations and reporting features, enhancing decision-making efficiency by 30 percent

- Maintained high code quality standards through code reviews, testing, and documentation practices

Key Projects

E-Commerce User and Admin Management Platform

- Built full-stack eCommerce platform with separate user and admin interfaces using React.js, Material-UI, and Axios
- Implemented real-time product search, advanced filtering, shopping cart, and secure payment gateway integration
- Developed comprehensive admin panel with CRUD operations, inventory management, and analytics dashboard
- Achieved 30 percent improvement in admin operational efficiency through streamlined interface design
- Technologies: React.js, Material-UI, Axios, REST APIs, Responsive Design

Hasini Info Tech – Official Website (Freelance Project)

<https://hasiniinfotech.in/>

- Designed, developed, and deployed the official website for Hasini Info Tech, an IT training startup.
- Delivered as a freelance project, managing **end-to-end development** including animations, responsiveness, and deployment.
- Built with **React.js, CSS, Framer Motion, and GSAP**, implementing smooth animations and a modern, professional interface.
- Optimized performance, scalability, and branding through **reusable components and custom color palettes**.
- **Technologies:** React.js, CSS, Framer Motion, GSAP, Responsive Design.

Human Resource Management System (HRMS)

- Developed comprehensive HRMS with modules for attendance tracking, leave management, and performance evaluation
- Integrated REST APIs with React Hooks for seamless data flow and real-time updates across the application
- Built interactive dashboards with data visualization components for HR analytics and reporting
- Implemented role-based access control and user authentication for secure data management
- Technologies: React.js, Node.js, MySQL, REST APIs, Chart.js, Material-UI

PMIT - Business Networking Platform

- Designed and developed B2B/B2C networking platform converting Figma designs into pixel-perfect, responsive UI
- Created modular, reusable component architecture reducing overall development time by 30 percent
- Implemented advanced networking features including user profiles, connection requests, and messaging system
- Optimized application performance through code splitting, lazy loading, and efficient state management
- Technologies: React.js, Material-UI, Responsive Design, Figma to Code, Component Architecture

Education

Bachelor of Technology (B.Tech), Electrical and Electronics Engineering

2017 – 2021

Lendi Institute of Engineering and Technology – Vizianagaram, India
